Bangle Dreamcatchers

Most dreamcatchers start with a stiff circular shape.

Many people have bangles that they no longer wear. So, let's recycle them into a fun project.

NOTE: If you don't have bangles, you can cut the edges from container lids, purchase pre-made circles or make your own from wire. You can also make other shapes with sticks, straws or anything that will create a frame.

Tools:

Scissors

Materials:

Bangle(s) or other frame shape

Yarn

String

Feathers

Glue

Beads

Steps:

Wrap bangle.

If you have a bangle that is damaged, would like to add color to it or are working with children, wrap your bangle with yarn. Tie it off and let the end(s) hang.

String.

Using string, wrap across the bangle so the string runs across the center. You can add beads to the string for more interest.

Decorate.

Decorate your catcher with beads and feathers. You can attach items to the hanging ends, add more string, etc.

Glue.

Make sure you glue all knots and that your decorations are secure.
