# Wire-Wrapped Pendant

Wrapping wire allows you to make a pendant out of almost anything, including:

- Sea glass
- Mosaic shapes
- Glass shapes
- Coins
- Shells

Select your item to wrap and wire.

Now let's begin.

## **Tools:**

Wire cutters  
Round-nose pliers  
Flat-nose pliers

## **Materials:**

Item to wrap  
Wire

## **Steps:**

### *Make the bail.*

Make a loop approximately 1/3 of the way from the right side of your wire. Twist the shorter end around the other wire 3-4 times (top image).

### *Curl the ends.*

Create a curl at the end of each wire (bottom image).

### *Straight down.*

Position your bail where you want the top of your pendant to be. Keep the wire straight about halfway down the back of your item, then bend a sharp angle.

### *Wrap.*

Wrap the remainder of the wire around your shape, making sure to end with the curled ends at the front of your pendant.
