Bubble Wands

Even as an adult, I love to play with bubbles. Why not make your own wands? From drinking straws to pipe cleaners, you can make a wide variety of wands.

Don't feel restrained by using a circle. Try squares, triangles and other fun shapes!

Tools:

Scissors
Wire cutters

Materials:

Drinking straws
Pipe cleaners
Wire hanger
Wire
String
Beads
Dowels

Steps:

Hands.

Make a circle with your hand, dip and blow.

Drinking straws.

Just dip and blow. You can also grab a bunch and tie them together snugly to get a lot of small bubbles. Just make sure you can fit the bunch in your mouth.

Pipe cleaners.

Twist two pipe cleaners together. At one end, open up a "circle" to use in the solution. Alternatively, you can wrap a pipe cleaner around a shape (like a cookie cutter) on one end.

Wire.

Find decorative, colored wire at your local craft store. Cut and shape to any style of closed shape.

Bubble Wands

Tools:

Scissors
Wire cutters

Materials:

Drinking straws
Pipe cleaners
Wire hanger
Wire
String
Beads
Dowels

Steps:

Wire hanger.

Bend the wire hanger so it resembles a circle, square or any other closed shape.

String.

Choose two straws. Using a piece of string four times the length of the straw, string the two straws on it and tie off. The straws will serve as handles.

Decorate.

Any of the above can be used as is or decorated. For example, you can add beads to the pipe cleaner or a dowel to the wire hanger to give it a better reach. Experiment with your bubble wands and have fun.
