

For use with these digital badge programs:

- My Education and Experience
- Enrichment Project set

Enrichment Product Digital Badges

The following pages contain the released badge programs from the Enrichment Project through December 2023. The badges are listed alphabetically.

At this time, all badges have been updated per the 2017 formatting changes. This includes moving the Grab 'n' Go sheets (which had numbered under 100) into supplements for specific badge programs. At the time of this release, there are over 8,000 supplements. This includes the starting supplements for the 2024 planned badge set of the states in the USA.

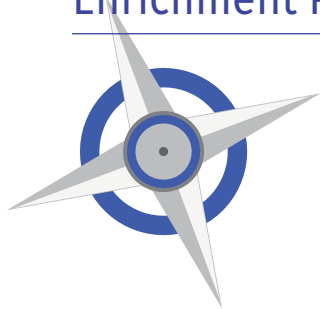

One of the large changes to the badge program is the depth. While some remain as a single badge program, some were broken into sets to allow you the option to go more into depth when working with older girls or adults. While Girl Scouts focuses on the younger girls to get them into scouting, they do not offer as many options for older girls who are still interested in exploring the possibilities. Badge sets also allow you a greater variety of activities when creating themed events.

A listing of badge sets is separate from this list. Each set also lists badges from outside the set that help support it, if applicable.
