Blank Signs: Backgrounds

Blank signs have both a background and an inner frame.

The background is basically digital paper. You can use it as it is for paper crafts, add an inner frame to make a sign, and more!

To keep this simple, only the colors, backgrounds, and inner frames will initially be released.

At a later date, overlays will be introduced.

Basically, assembly of the blank signs will be as follows:

→ Overlay (top layer)

→ inner frame (middle layer)

→ Background (bottom layer)

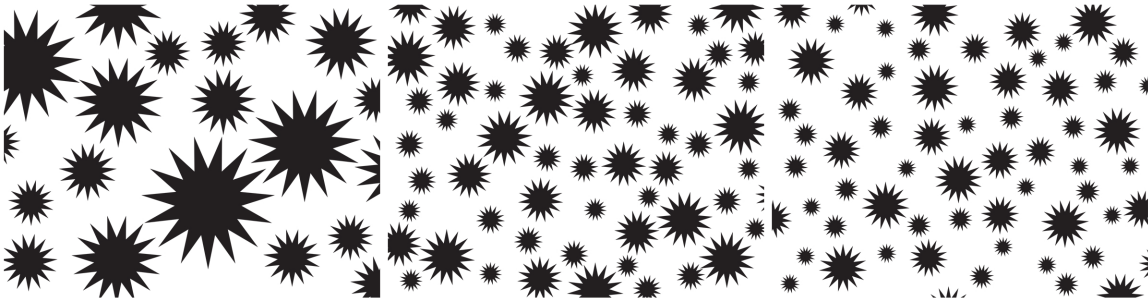

Colors will be added to each layer.

On initial release, there are over 900 backgrounds. As such, only overviews and contact sheets will be released. By doing it this way, I can create those that are requested without making thousands of files that may or may not be used.

NOTE: The following pages are by the shapes on the background. As such, you may see blank spaces between the groups.
