Salt Ceramic

Make a dough that will dry hard enough to make beads as well as any other three-dimensional object you wish.

NOTE: This recipe requires heat. Be sure to supervise young cooks.

TOOLS:

- Pot
- Stove
- Wax paper

MATERIALS:

- Table salt, 1 cup
- Cold water, 3/4 cup
- Cornstarch, 1/2 cup

STEPS:

1. Combine all ingredients in a pot.
2. Cook this mixture over heat, stirring constantly.
3. When it gets as stiff as bread dough, drop onto wax paper and cool.
4. Knead with hands, then mold with your hands.

This will dry hard and can be painted.
