Geometric Paper Mosaics: Rectangle, 2" Wide Outlined

This mosaic tile is a two-inch wide outlined rectangle.

The individual tiles are 12-up on a sheet.

You can cut them by hand.

If you're using the tiles for building a mosaic that will be glued down to the grid, place all the tiles and make sure the design is what you want. When you're happy, glue the tiles.

You may also choose to print the tiles on card stock so you can use it more than once as more of a reusable activity.
