Paper Finger Puppets: Insert Template

This template is designed to put your fingers into it to simulate legs. This basic image looks like a matryoska doll.

You may find you need to make the circles for your fingers larger.

The rectangle on the bottom of the doll is designed to fold up to the back of the puppet. It makes the bottom double-thickness to minimize the chance of the puppet ripping during play. You may choose to trim it off.

In the blank area, you can create your own design. Some ways you may do this includes:

- Adding clip art
- Adding magazine images
- Drawing
- Stamping
